Promised Arrival Time: 05/04/2022 12:00 AM

Work Done

Equipment: SR-Lake 1 (Service Report)
Description: Today I did a thorough inspection of the lake. I did a spot treatment for the algae. Most of the growth was located near the boat launch, in the small cove on the east side of the pond, and on the far southern shoreline. I have attached a few photos for reference. Algae levels will decrease over the next few days. The submerged weed growth was low. No treatment was needed for this today. Water parameters were measured and recorded in the service report.
Thanks,
Kayla 5/4/2022
