 Promised Arrival Time: 05/18/2022 12:00 AM

Work Done

Equipment: SR-Lake 1 (Service Report)

Description: Today I did a spot treatment for the curlyleaf pondweed. Majority of the curlyleaf was on the north shoreline. The plants should die off in 7-14 days. I also did a treatment for the algae/chara. You should see some improvement over the next few days. A lot of the algae was dead from the treatment made last week. This should decompose over the next few weeks. Water parameters were measured and recorded in the service report.
Thanks,
Kayla 5/18/2022
