Promised Arrival Time: 05/04/2022 12:00 AM

Work Done

Equipment: SR-Lake 2 (Service Report)

Description: Today I did a thorough inspection of the lake. I did a spot treatment for the algae. Most of the growth was located in the channel between lakes 2 and 3, and the shallow cove areas. I have attached a few photos for reference. Algae levels will decrease over the next few days. The submerged weed growth was low. No treatment was needed for this today. Water parameters were measured and recorded in the service report.
Thanks,
Kayla 5/4/2022
