## Work Done

---

**Equipment:** SR-Lake 2 (Service Report)

**Description:** Today I did a spot treatment for the curlyleaf pondweed and leafy pondweed. The plants should die off in 7-14 days. I also did a treatment for the algae/chara. You should see some improvement over the next few days. Water parameters were measured and recorded in the service report.  
Thanks,  
Kayla 5/18/2022
