 Promised Arrival Time: 05/11/2022 12:00 AM

Work Done

Equipment: SR-Lake 2 (Service Report)

Description: The lake had some algae growth due to the spike in temperature this week. I did a treatment around the perimeter of the lake today. You should see some improvement over the next few days. Submerged weed levels were low. No treatment was needed for this today. No duckweed observed. Water parameters were measured and recorded in the service report.
Thanks,
Kayla 5/11/2022
